
ACTIVITIES @ THURUNA

Effective 2021

Aqua Adventure

When you can't get to the beach, we bring the water to you! Tribes work together in a series of fun and engaging activities. Ensure participants are not wearing their Sunday best because they will be wet in no time!

Archery Tactics

Ready? Aim! Loose! Participants will master the basics of using a recurve bow, including launching and catching a specialty padded arrow, before being let loose in the epic team vs team battle. Who can conquer the most territory? (Ideal for years 7+)

Beach games

Participants undertake a number of competitive beach activities designed to maximize teamwork and encourage physical participation – a great way to start camp.

Beyond Limits Relay

Racing against other tribes sounds easy, until you see the challenges your group needs to conquer! Communication is key in this fast paced challenge.

Bodyboarding

Time spent at the beach is an Australian institution! Under the watchful eye of our qualified facilitators, participants are introduced to the ocean swells whilst learning how to body board and ride the surf.

Brain Twister

Participants' problem solving skills are challenged through a series of team activities that require 'out of the box' thinking. Tribes will need to draw on each other's skills and each play their part if they are to be successful. Sometimes the quietest tribe member is the one with the best things to say!

Challenge Course

In tribes, participants navigate their way through a series of challenging activities that require teamwork and initiative to achieve success.

Expedition

Looking back over the rugged coastal cliffs towards Tumby Bay participants have the opportunity to hike a stunning section along the world famous coast line. Trips can range from day walks to epic overnight adventures, and be sure to ask us about the overnight solo experience on the beach!

Mountain Biking

Riders undertake a competency skills test followed by a scenic ride through neighboring properties. There are different journeys we can take, depending on the riding ability of the group.

Parachute Games

Participants are engaged in a series of team games which take place on top of, around and underneath a giant parachute, all where teamwork and cooperation is a must. (Ideal for Years R-3)

Raft Making

Would you survive if you needed to stay dry on your own, personally designed raft? Not only does it need to be sturdy, it needs to be quick enough to beat the other groups. Participants will need to practice their knots because they will be needed in this open water challenge.

Shelter Building

The storm is coming! Will you stay safe and dry? Working together with their tribe mates, participants will build a shelter to protect the group from the coming wind and rain.

Surf Rescue

Water safety is an essential life skill. Participants learn about the ocean and the dangers that may be encountered on Australian beaches. They also experience activities that surf rescuers have been involved in for generations.

Survival Skills

Could you survive in the wilderness without access to the creature comforts we're used to? Participants will become experts in fire starting (without the use of matches or lighters!) and safety, while learning about many other practical wilderness skills. (Ideal for Years 5+)

Team Relay Challenge

Racing against other tribes sounds easy, but if you are in a sack, on a moon bouncer, tied to one or many other tribe members, the challenge ramps up! You will need to work together in order to emerge victorious in Team Relay Challenge. (Ideal for Years R-3)

Water Obstacle

In the spirit of 'Survivor', tribes work together to build a series of systems that will transport water between two points in order to release a puzzle. A fun activity - not for the faint hearted. Be prepared to get wet and grubby!
